65%

SKILLS

- HTML
- CSS
- Bootstrap
- PHP
- MYSQL(database)
- JavaScript
- Node.js
- Express.js
- MongoDB
- Aws

PROJECTS

• **Realtime icecream delivery application**

It is my latest and biggest project ever. fully based on nodejs, expressjs and mongodb. here my work is to create connection with database. and also testing and finding error.

- **Study_Room**

This is totally created by me. Each and every section is my idea. And it is totally based on PHP, fully responsive with the help of Bootstrap, and simple UI and Admin panel. And used Mysql for data management.

- **E-COMMERCE website for grocery items**

This project i did with my short team where everyone has different different skills. And it's also fully responsive based on PHP with mysql database.

- **News site**

I did this one page project on fully javascript and here i show every news with fetch api from news api websites.

- **Notepad**

I complete this one page project totally based on javascript and saved notes data in local storage of the browser.

- **Realtime chat application**

It is also amazing project which is based on nodejs. Here i used web Socket for two way connection. Also deployed on the server AWS EC2.
